PRIME

Glossy PPF with optimal clarity, gloss and protection

Nanotek® Prime offers superior protection with extreme clarity. When no compromises are to be made, Nanotek® Prime delivers optimal clarity, gloss and protection. A super high-gloss surface protection film that is scratchproof, dirt-repellent and stone-chip resistant.

The above features combined with self-healing protective properties, makes this film a MUST HAVE for any modern enthusiast.

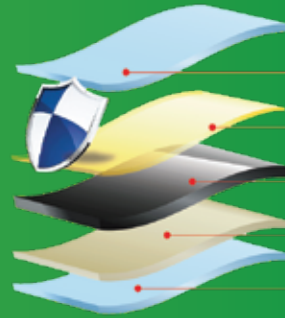

- High Gloss Urethane Film
- Extreme clarity
- Perfect for all around application
- Self-healing top coat
- 5 Years Warranty

CHARACTERISTICS

Nanotek® Prime is a super hydrophobic, self-healing, ultra clear, glossy surface protection film. It is a go to product for many 3S/4S dealerships around the World.
