

ULTIMATE PRO

Our Most Premium, Glossy Surface Protection Film

Nanotek® Ultimate Pro goes further than any other PPF film, with its 9.5 Mil of protection. Nanotek® Ultimate Pro combines excellent elastic properties and optical clarity with a high resistance to impact and abrasion. It is also super gloss-enhancing. Made for the most fussy customers who want nothing less than the best protection.

Nanotek® Ultimate Pro is perfect for use on smooth surfaces such as car paint and is easily formed on convex and concave curves.

Our state-of-the-art production techniques deliver a film that is super clear despite the 240 microns thickness. By combining a new, clear top layer with a proven aliphatic polyurethane resin, Nanotek® Ultimate Pro is the ideal protective film for any surface. Nanotek® has already achieved OEM status and is factory mounted on vehicles around

FEATURES

- Self-healing technology
- 240 microns of protection
